

NOOR FATIMA

Data Analyst | Power BI Expert | Aspiring Data Engineer

• Lahore, Pakistan • (+923) 074199226 • egr.noor.fatima@gmail.com • [LinkedIn](#)

SUMMARY

Data Analyst with 3 years of experience building automated dashboards, SQL-based insights, and data workflows across healthcare and enterprise environments. Skilled in Power BI, SQL, and Python, with growing expertise in data engineering, ETL automation, and cloud-based solutions. Adept at designing scalable data systems that enhance decision-making and operational efficiency.

SKILLS

Technical: Power BI, SQL (MySQL, PostgreSQL), Python, ETL Workflows, Data Modeling, REST APIs, Excel.

Professional: Agile Project Management, Stakeholder Collaboration, Cross-functional Coordination.

KEY PROJECTS

- **ETL Pipeline for Healthcare Analytics:** Extracted patient data via API, transformed using Python/SQL, and visualized in Power BI for real-time RPM insights.
- **Payroll & Finance Reporting Automation:** Automated monthly reports using Power BI and Python, saving 150+ manual hours and improving accuracy.
- **KPI Monitoring & Data Warehouse Reporting System:** Designed SQL datasets and dashboards for leadership teams, enhancing performance visibility across business units.

EXPERIENCE

Lead Power BI Developer @ TekBoox Ltd.

Lahore, Pakistan | Apr. 2025 – Present

- Developed and integrated Power BI reports within the RPM product.
- Exposed a 46% loss in potential revenue by auditing inventory transactions and improving workflows.
- Led a patient-health monitoring project by defining KPIs aligned with medical standards.
- Designed a data pipeline to ingest API data into the database, enabling real-time insights beyond MySQL direct-query limitations.
- Delivered a Power BI dashboard that improved the medication reordering process by 30%.
- Built and mentored a cross-functional team in Power BI, Excel, SQL, and data analysis fundamentals.
- Audited legacy reports, uncovering a \$14,000 loss and establishing new quality standards for critical business dashboards.

Data Analyst @ CureMD

Lahore, Pakistan | Jan. 2023 – Mar. 2025

- Delivered 10+ Power BI dashboards for quarterly audits, saving 180+ manual hours and improving SLA compliance by 5%.
- Enhanced the release process through deployment task analysis that reduced downtime and instability.
- Implemented row-level security (RLS) in Power BI dashboards to ensure data privacy.
- Standardized HR reporting with a single-source dashboard for transparent performance tracking by leadership.
- Designed automated KPI dashboards for 15+ Scrum teams with individual-level drill-downs.
- Delivered SQL-based datasets and KPI reporting for CS, PMO, and C-Suite teams, ensuring accuracy, efficiency, and data-driven decisions.

EDUCATION & CERTIFICATIONS

Education:

BSc. Mechatronics & Control Engineering from University of Engineering and Technology, Lahore (2018 –22).

Certifications:

- Web Engineering - P@SHA (2022).
- Google Data Analytics Professional Certificate (2023).
- Google Project Management Professional Certificate (2024).
